Transformation Through Touch 2017–2018 Hendrickson Method Training Information

Prospective students should review this catalog prior to enrolling in classes.

Hendrickson Method® was developed by Dr. Tom Hendrickson. He has tested and refined this advanced treatment system through 40 years of clinical practice and teaching. Hendrickson Method® combines the most advanced and effective modalities in manual therapy, including a unique style of soft tissue mobilization created by Dr. Hendrickson called *wave mobilization*®, as well as joint mobilization, and muscle energy technique.

The Hendrickson Method Institute offers transformative workshops in advanced manual therapy for qualified practitioners. The training is offered as a series of 6, 4-day workshops, which can be taken in succession or as stand-alone modules. Successful completion of all six classes allows the student to sit for the Hendrickson Method practical exam.

Hendrickson Method students learn to:

- Effectively reduce pain and restore function using Hendrickson Method
- Stay relaxed during treatments and efficiently use their bodies so they remain healthy and feel energized after every session
- Perform manual therapy as a moving meditation that allows them to be a vehicle for the healing energy of the universe

As school members of the National Certification Board for Therapeutic Massage and Bodywork (NCBTMB), Associated Bodywork & Massage Professionals (ABMP) and the American Massage Therapy Association (AMTA), the Hendrickson Method Institute is committed to advancing the field of massage and bodywork through expertly crafted training courses that skillfully combine state-of-the-art technical developments in the field of orthopedic manual therapy with energy healing. Students can earn continuing education hours for each module of training.

COURSES OF INSTRUCTION

Hendrickson Method training workshops (modules) may be taken for certification in Hendrickson Method, for continuing education, or simply to advance a therapist's knowledge and skills without certification.

If you are a certification student, there are two primary levels of training in Hendrickson Method: Practitioner Level 1 and Practitioner Level 2. Each is comprised of three modules. Completion of all six modules and passing a practical examination leads to Hendrickson Method Practitioner certification. Students who take all six modules a second time may become Hendrickson Method Therapists. Students seeking self-paced certification may take individual modules at their convenience.

Students who are not taking the training for certification are not required to take the exams. Graduates from the program are invited to repeat the courses to deepen their skills over time.

Please note that:

- Sexually charged or inappropriate language or actions are not permitted at any time.
- When students are working on one another in class, their peer relationship

transitions into a therapist/client relationship and it is the later role that should guide behavior. The NCBTMB Code of Ethics states this as follows: Therapists will “refrain, under all circumstances, from initiating or engaging in any sexual conduct, sexual activities, or sexualizing behavior involving a client, even if the client attempts to sexualize the relationship.”

Inappropriate behavior should be reported to the instructor or to the school administrator at the administrative office (510-524-3107 or school@hendricksonmethod.com). If you have any questions regarding the above policies, please ask your instructor to discuss them with you.

Attendance Requirements, Tardiness and Leave of Absence

Hendrickson Method Certification students must attend at least 80% of the originally scheduled classes and make up enough of the missed classes to meet the 90% attendance requirement. Students who are more than 30 minutes late to class are considered tardy. Three tardy marks will be considered one absence. Students missing more than 20% of class time will not receive credit for the class. If a student is required to take a leave of absence from the training program under extenuating circumstances, refunds will be given according to school policy unless a mutually agreed upon plan to continue training at a different time is determined and an addendum to the enrollment agreement is signed.

Students must attend 100% of the 4-day module to receive continuing education hours. Tardiness or leaving early by more than 15 minutes equals an absence.

Making Up Classes

Hendrickson Method Certification students must make up all missed classes within 1 month of the end of the school year (by July 16, 2017). Make up classes must be for the specific class topic originally missed according to these rules:

1. Students may make up missed classes by scheduling a private tutorial with one of the designated instructors.
2. A one-hour tutorial is equivalent to 3 1/2 hours of class time.
3. Tutorials are considered extra-curricular and are not included in the tuition. Fees range depending on the number of students attending and the instructor's fee. 24-hour cancellation notification is required in order to avoid a cancellation fee.
4. Each student must arrange tutorial appointments with the instructor directly and make payments directly to them.
5. Students must return a tutorial form signed by the make-up teacher to the current instructor in order to get attendance credit.

At this time she was ready for a new approach. Hendrickson Method introduced a unique way of thinking about, practicing, and treating the body. She completed her teaching certification in 2012 and has been practicing Hendrickson Method for nine years. She maintains a private practice in San Francisco.
